

How to create a login to pay GET online

First, go to hitax.hawaii.gov

Click "Sign Up"

You'll get a page of instructions.

Create Logon

Introduction

About This Submission

This submission allows you to sign up for a web logon. A web logon can be created for both businesses and individuals which are both referred to as a "taxpayer". Once you have a web logon that is associated with a taxpayer, you can add access to tax accounts by answering simple validation questions.

What You Need

To validate that your web logon is allowed access to a taxpayer, you must supply the following information:

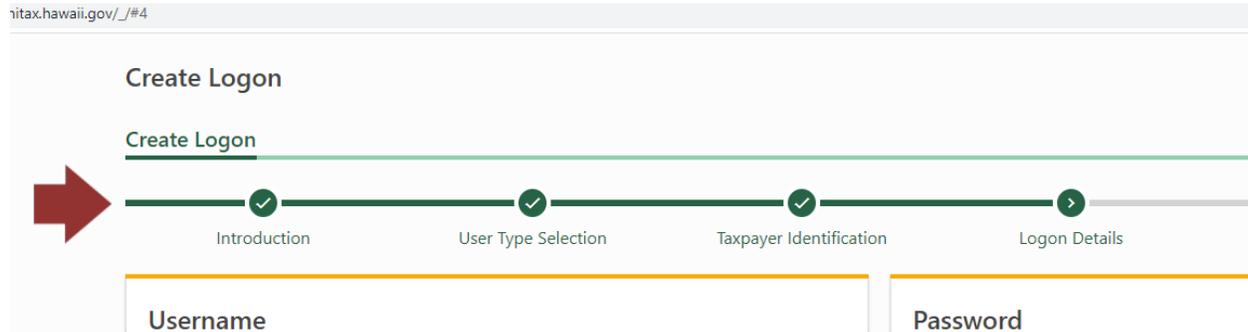

- FEIN, SSN, or ITIN
- Name
- Zip Code
- Either a letter ID, recent payment amount, or the most recent refund amount

Submission Instructions

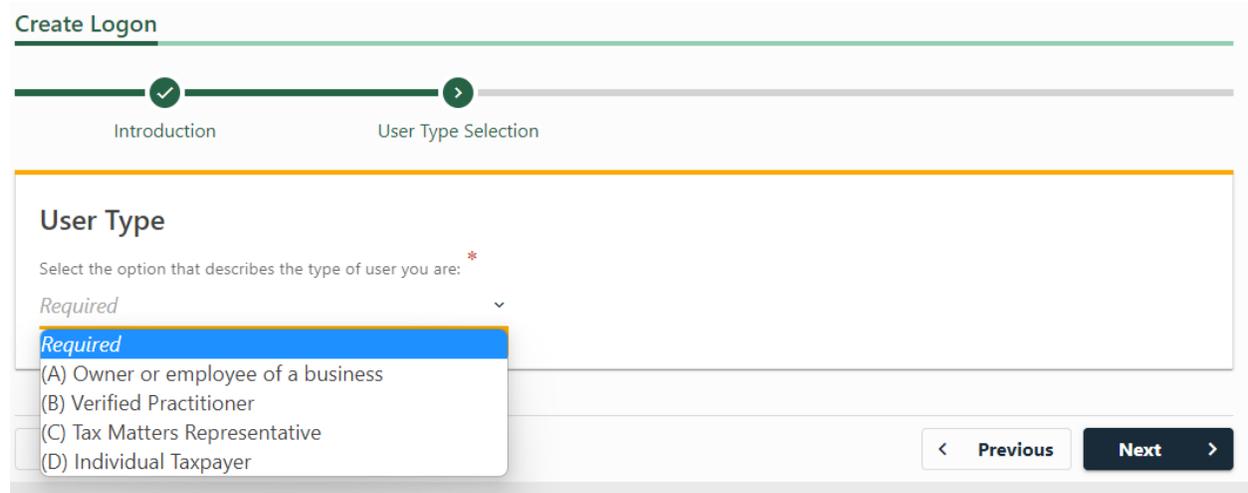

Use the buttons at the bottom of each page to navigate each step. You cannot move to the next step unless all fields are completed without an indicated error. Your submission will not be filed until you click the **Submit** button on the final step. **Your session will be locked after 15 minutes of inactivity.**

Cancel Previous Next

As you navigate from page to page, if you need to jump to a previous step you can do so easily using the ribbon at the top of the screen.

Select which type of user you are. Most people should choose “(D) Individual Taxpayer”, unless they’re setting up an account for a corporation.

Enter your information. You'll need your social security number, zip code, and a number from either a state letter, a tax return, a payment you recently paid, or a refund you recently received. If you have none of these, select "None of the above" and the state will send you a verification letter.

Introduction ✓ User Type Selection ✓ Taxpayer Identification >

Taxpayer Information

Enter the following information for the individual taxpayer you wish to create a logon for.

ID Type
SSN

ID
***-**-6789
